0. Other:		JOSEPH H	I. Full
		/ / rnimaky f)	AMINED

Continuation of 5. does NOT place the application in condition for allowance because:

Boezeman's system teaches a time line based system. Hamakawa's reference to a time line system having drawbacks (i.e. Hamakawa p. 273 - bottom of first column, to top of second column) is referring to a traditional time line system. Hamakawa points out that there is no "mechanism to ensure that the length of one media data will dynamically conform to the length another one", and that "different media data are not automatically synchronized with one another" (subsequent to user editing). Hamakawa's article proposes various solutions to these problems, the Examiner applies said solutions to Boezeman's time line editor (see also previous Office Action).
